

PLAY WITH YOUR FOOD

Make a Snack Tower!

1

Gather toothpicks and small, round snacks like grapes, gumdrops, cherries, or raisins.

2

Use the snack to hold your toothpicks, making a square first. Make a second square. One will be the bottom and one will be the top!

3

Pick one square for the bottom and stick four toothpicks pointing straight up. Attach the top square by poking the toothpicks into each corner of your snack.

4

After building your square, you can make a house or repeat these steps to make a tower! Or, get creative and build whatever you want!
